PROFILE

MCA final-year student with hands-on experience building full-stack web applications. Skilled in REST APIs, backend development, and client-server architecture, with a strong problem-solving mindset and eagerness to learn.

EDUCATION

Master of Computer Applications (MCA) , University Center for Computer Science & Information Technology, University of Rajasthan	2024 – Present CGPA-5.19/6.00
---	----------------------------------

SKILLS

Languages

Java, JavaScript, Python

Backend

Node.js, Express.js, RESTful APIs

Databases

MongoDB, MySQL

Frontend

React.js, HTML5, CSS3

Tools

Git, GitHub, Postman, VS Code, Docker

Core Concepts

Data Structures, OOP, DBMS, Operating Systems

PROJECTS

LogPose AI, AI SaaS Content Generator

Technologies: React.js, Node.js, Express.js, MongoDB

- Built a **full-stack AI SaaS platform** with multiple tools including caption generator, blog idea generator, email writer, and LinkedIn post generator
- Implemented **JWT-based authentication** and **protected routes** for secure user access
- Integrated **AI APIs** to generate dynamic content based on user prompts
- Designed and implemented a **history tracking** system storing user queries and results in **MongoDB**
- **GitHub:** <https://github.com/prateekbalothia/LogPose-AI> 🔗

Selene, Full-Stack E-Commerce Application

Technologies: React, Node.js, MongoDB

- Designed a **modular backend architecture** separating routes, controllers, and models for maintainable server-side development using **MVC pattern** (routes, controllers, models)
- Developed **15+ RESTful APIs** for user management, product catalogue, and order workflows
- Implemented **data validation and structured request handling** using **middleware**
- Managed **API testing** using Postman and version control using **Git**
- Gained practical exposure to **end-to-end system flow, data handling, and backend-frontend integration**
- **GitHub:** Web App: <https://github.com/prateekbalothia/Selene-react-web> 🔗
